

Call for Papers

The 9th ACM Symposium on Information, Computer and Communications Security

ACM ASIACCS 2014
Kyoto, Japan
June 2nd - 6th 2014
<http://asiaccs2014.nict.go.jp>

IMPORTANT DATES

Submission Deadline:	6 December 2013, 23:59 UTC (Firm Deadline)
EXTENDED DEADLINE	16 December 2013, 23:59 UTC
Workshop Proposal Deadline:	6 December 2013
EXTENDED DEADLINE	16 December 2013, 23:59 UTC
Acceptance Notification:	27 January 2014
EXTENDED	4 February 2014
Camera-ready Copy Due:	28 February 2014
EXTENDED	31 March 2014
Conference:	4-6 June 2014 (2-3 June 2014 for workshops)

CONFERENCE SCOPE

Building on the success of ACM Conference on Computer and Communications Security (CCS) and ACM Transactions on Information and System Security (TISSEC), the ACM Special Interest Group on Security, Audit, and Control (SIGSAC) formally established the annual ACM Symposium on InformAtion, Computer and Communications Security (ASIACCS). The inaugural ASIACCS was held in Taipei (2006). Since then ASIACCS has been held in Singapore (2007), Tokyo (2008), Sydney (2009), Beijing (2010), Hong Kong (2011), Seoul (2012), and Hangzhou (2013).

ASIACCS 2014 is the ninth conference of the series, and will be held in Kyoto, Japan, a city renowned for its historic relics and natural beauty. Kyoto was (and some say still is a) capital of Japan for over a millennium, and contains many sites of cultural significance, including some of the most famous temples and shrines in Japan as well as imperial palaces and gardens. In addition, Kyoto is home to Nintendo among many other computer companies.

ASIACCS is a major international forum for information security researchers, practitioners, developers, and users to explore and exchange the newest cyber security ideas, breakthroughs, findings, techniques, tools, and experiences. We invite submissions from academia, government, and industry presenting novel research on all theoretical and practical aspects of computer and network security. Areas of interest for ASIACCS 2014 include, but are not limited to:

- Access control
- Accounting and audit
- Anonymity
- Applied cryptography

- Authentication
- Data and application security
- Embedded systems security
- Hardware-based security
- Intrusion detection
- Malware and botnets
- Network security
- Privacy-enhancing technology
- Security metrics
- Trusted computing
- Web security
- Cloud computing security
- Digital forensics
- Formal methods for security
- Inference control and disclosure
- Key management
- Mobile computing security
- Operating system security
- Security architectures
- Software security
- Usable security and privacy
- Wireless security

PAPER SUBMISSIONS

Submissions must be written in English, and must be at most 10 pages excluding the bibliography and well-marked appendices, and at most 12 pages overall. Committee members are not required to read appendices, so the paper should be intelligible without them. Submissions must be in double-column ACM SIG Proceedings format (<http://www.acm.org/sigs/publications/proceedings-templates>, both Option 1 and Option 2 on the page are fine) with page numbers. No changes to margins, spacing, or font sizes are allowed from those specified by the style file. We reserve the right to request the source files for a submission to verify compliance with this requirement. Only PDF files will be accepted.

All submissions must be anonymized. An author's name should occur only in references to that author's related work, which should be referenced in the third person and not overtly distinguishable from the referenced work of others. Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal, conference or workshop. Simultaneous submission of the same work is not allowed. Authors of accepted papers must guarantee that their papers will be presented at the conference.

Accepted papers will be published by ACM Press as conference proceedings in USB thumb drives and in the ACM Digital Library. Final proceedings versions will be 10 pages in double-column ACM format, although authors will have the option of buying a limited number of additional pages. In addition to regular papers, some short papers could also be accepted and included in the proceedings.

ORGANIZATION

Honorary Chair:	Koji Nakao, NICT/KDDI, Japan
General Chair:	Shiho Moriai, NICT, Japan
Program Chairs:	Trent Jaeger, Penn State University, USA Kouichi Sakurai, Kyushu University, Japan
Workshop Chair:	Vinod Ganapathy, Rutgers University, USA
Local Organizing Chair:	Tetsutaro Uehara, Ritsumeikan University, Japan
Publicity Chair:	Ryo Nojima, NICT, Japan
Financial Chair:	Sachiko Kanamori, NICT, Japan

Program Committee:

Gail-Joon Ahn, Arizona State University, USA
Elisa Bertino, Purdue University, USA
Kevin Butler, University of Oregon, USA
Alvaro Cardenas, UT Dallas, USA
Liqun Chen, HP Labs, UK
Michael Clarkson, George Washington University, USA
Debin Gao, Singapore Management University, Singapore
Guofei Gu, Texas A&M University, USA
Sushil Jajodia, George Mason University, USA
Ruediger Kapitza, TU Braunschweig, Germany
Hiroaki Kikuchi, Meiji University, Japan
Engin Kirda, Northeastern University, USA
Ruby Lee, Princeton University, USA
Jiangtao Li, Intel Corporation, USA
Yingjiu Li, Singapore Management University, Singapore
Zhiwei Li, UC Berkeley, USA
Zhiqiang Lin, UT Dallas, USA
Aziz Mohaisen, Verisign Labs, USA
Daniela Oliveira, Bowdoin College, USA
Mathias Payer, UC Berkeley, USA
Michalis Polychronakis, Columbia University, USA
Christian Probst, TU of Denmark, Denmark
Kui Ren, University of Buffalo, USA
Pierangela Samarati, University of Milan, Italy
Joshua Schiffman, Advanced Micro Devices, USA
Dongwan Shin, New Mexico Tech University, USA
Abhinav Srinistava, AT&T Labs -- Research, USA
Willy Susilo, University of Wollongong, Australia
Gang Tan, Lehigh University, USA
Wen-Guey Tzeng, National Chiao Tung University, Taiwan
Hayawardh Vijayakumar, Penn State University, USA
Rui Wang, Microsoft Research, USA
Guoliang Xue, Arizona State University, USA
Moti Yung, Google & Columbia University, USA
Jianying Zhou, Institute for Infocomm Research, Singapore
Joonsang Baek, Khalifa University of ST&R, UAE
Ioana Boureanu, EPFL, Switzerland
Justin Cappos, NYU Polytechnic University, USA
Kefei Chen, Shanghai Jiaotong University, China
Sherman S. M. Chow, Chinese University of Hong Kong, China
Matthew Fredrikson, University of Wisconsin, Madison, USA
Thomas Gross, University of Newcastle, UK
Ragib Hasan, University of Alabama, Birmingham, USA
Xuxian Jiang, North Carolina State University, USA
Stefan Katzenbeisser, TU Darmstadt, Germany
Dong Seong Kim, University of Canterbury, New Zealand
Xuejia Lai, Shanghai Jiaotong University, China
Chin-Laung Lei, National Taiwan University, Taiwan
Ninghui Li, Purdue University, USA
Zhichun Li, NEC Labs, USA
Zhenkai Liang, National University, Singapore
Harsha Madhyastha, UC Riverside, USA
David Naccache, Ecole Normale Supérieure, France
Xinming Ou, Kansas State University, USA
Zachary Peterson, Cal Poly SLO, USA
Georgios Portokalidis, Stevens Institute of Technology, USA
Zhiyun Qian, NEC Labs, USA
Susmita Ruj, University of Ottawa, Canada
Nuno Santos, MPI-SWS, Germany
Micah Sherr, Georgetown University, USA
Christian Skalka, University of Vermont, USA
Angelos Stavrou, George Mason University, USA
Patrick Tague, CMU Silicon Valley, USA
Mahesh Tripunitara, University of Waterloo, Canada
Eugene Vasserman, Kansas State University, USA
Huaxiong Wang, Nanyang Technological University, Singapore
Yuji Watanabe, IBM Research, Japan
Danfeng Yao, Virginia Tech University, USA
Fanguo Zhang, Sun Yat-sen University, China
